Audience	people starting to work in Scrum and people working closely with Scrum Teams
Format	intensive workshop, in person or online (Zoom and Mural)

WHO IS IT FOR?

- The participant is starting to work in Scrum and wants to experience it first.
- The participant works close to Scrum Teams (HR, marketing, administration) without understanding how they work.
- The organization wants to understand what Scrum offers compared with its current way of working.
- Scrum events, roles and artifacts are perceived as new names for old things.

WHAT PARTICIPANTS TAKE AWAY

After the training, the participant:

- understands the mechanics of Scrum through experience,
- knows who is accountable for what in Scrum,
- distinguishes Scrum from the myths about it,
- understands the purpose and benefits of self-management.

PROGRAM OUTLINE

Day 1

1. Software development, history and the origins of Scrum.
2. What is agility and how Scrum differs from traditional models.
3. Scrum and all its elements.
4. Communication between stakeholders and the Scrum Team.

2. Building an IT product iteratively and incrementally with Scrum.

This is an outline. The trainer adapts it to the group's needs and experience.
