Scrum.org training

Applying Professional Scrum for Software Development™

WHAT IT IS

A three-day hands-on course in which Scrum Teams build working software on a realistic system, Sprint after Sprint, using Agile engineering practices and DevOps tools (formerly Professional Scrum Developer). It ends with the Scrum.org PSD I certification assessment.

AT A GLANCE

Duration	3 days (3 × up to 8 hours)
Audience	all members of a Scrum Team that builds software: programmers, testers, architects, analysts, database developers and operations staff, as well as Scrum Masters and Product Owners
Format	intensive workshop, in person or online (Zoom and Mural)
Language	English or Polish
Certificate	PSD I (Scrum.org assessment), does not expire
Led by	Trainer to be confirmed with the date
PDUs (PMI)	21 for attendance

WHO IS IT FOR?

- The team "does Scrum" but has no working software at the end of the Sprint.
- Testing does not happen every Sprint and problems surface at the end.
- Technical debt grows and the Definition of Done exists only on paper.
- Developers, testers and analysts work side by side rather than together.

WHAT PARTICIPANTS TAKE AWAY

After the training, the participant:

- delivers a usable, Done Increment every Sprint,
- combines Scrum with engineering practices and DevOps tools,
- understands what software quality is and how to limit technical debt,
- applies Test-Driven Development, pair programming and mob programming,
- has experience of Developers, a Product Owner and a Scrum Master working as one team.

PROGRAM OUTLINE

Day 1

1. Scrum and working in a Scrum Team.
2. Definition of Done.
3. Product Backlog management and vertical slicing.
4. Specification by Example.
5. The first Sprint on a realistic system.

Day 2

1. Code quality and technical debt.
2. Test-Driven Development and Acceptance Test-Driven Development.
3. Pair programming, including strong-style, and mob programming.
4. Refactoring and clean code.
5. Code review.

Day 3

1. Emergent architecture.
2. Agile testing: automation and exploratory testing.
3. Continuous integration and DevOps practices in Scrum.
4. Measuring the impact of the team's work.
5. Problems brought by participants.

This is an outline. The trainer adapts it to the group's needs and experience.

PRACTICALITIES

Assessment and certificate	The PSD I assessment is taken online, in English. The participant usually receives the password within 2 business days after the class. If the participant attempts the assessment within 14 days and scores below 85%, a second attempt is free of charge.
PDUs (PMI)	21 PDUs for attendance, regardless of the assessment.
Payment	We issue a VAT invoice to a company or an individual. The standard payment term is 14 days; bank transfer or card. We also serve companies from outside Poland.
Before the class	After registration the participant receives full information by e-mail: venue, hours, what to prepare. The address and hours are confirmed two weeks before the class.
Lunch	Lunch is included in the price of in-person classes.

PRICE

Public class

PLN 4,900 net per person

Current dates and prices: brasswillow.pl, Calendar.

Private class

Group of 8–13	**PLN 4,700 net per person**
Smallest group	**5 people**

A private class usually takes place at the client's premises; a rented room is charged at cost, as a separate invoice item. Date and scope are agreed individually. The price excludes the trainer's travel and accommodation outside their place of residence: within Poland, PLN 1,500 net per trainer for a two-day class.

Prices are net, in PLN; VAT is not included. Offers in EUR or USD on request (plus 15% for exchange-rate risk and bank spread). Invoices are payable within 14 days.
