Modern development methods

# Bootcamps

## WHAT IT IS

A bootcamp kicks off something big: a new technology, method, approach or change. We run it like a conference, ideally away from the office: parallel talks and workshops repeated two or three times, a few core sessions everyone attends and optional ones to choose from, a "bootcamp passport" for collecting attendance stamps, and, for bootcamps longer than two days, an unconference part. We can also organize a bootcamp outside our own field by bringing in the right experts. Priced individually.

## AT A GLANCE

| | |
|---|---|
| **Audience** | organizations starting a large initiative with a bigger group of people |
| **Led by** | Kate Hobler |

## WHO IS IT FOR?

- A new technology, method or change is about to start and everyone needs the same basics.
- People from different departments face the same problems and do not know each other.
- Single trainings do not add up to a whole.

## WHAT YOU GET

**The client receives:**

- everyone with the same foundations,
- each participant with what they need for their own work,
- contacts between departments that last after the bootcamp,
- materials useful later for onboarding.

## PRICING

Priced after an initial conversation; the price depends on the number of people covered.

Prices are net, in PLN; VAT is not included. Offers in EUR or USD on request (plus 15% for exchange-rate risk and bank spread). Invoices are payable within 14 days.
