Scrum.org training

Professional Agile Leadership™ – Essentials

WHAT IT IS

The course develops the leadership competencies of people who lead teams. It is independent of the way of working in use: Scrum serves only as an example. It ends with the Scrum.org PAL I certification assessment.

AT A GLANCE

Duration	2 days (2 × up to 8 hours)
Audience	leaders, managers, Scrum Masters supporting their managers
Format	intensive workshop, in person or online (Zoom and Mural)
Language	English or Polish
Certificate	PAL I (Scrum.org assessment), does not expire
Led by	Kate Hobler, Professional Scrum Trainer
PDUs (PMI)	14 for attendance

WHO IS IT FOR?

- The participant has taken, or is about to take, responsibility for teams.
- Leaders in the organization still do specialist work instead of leading teams.
- Teams do not take ownership of the results of their work.
- The organization expects higher team effectiveness from leaders, also in connection with AI adoption.

WHAT PARTICIPANTS TAKE AWAY

After the training, the participant:

- distinguishes the roles of manager and leader and identifies their own leadership style,
- uses a tool for assessing and developing team maturity,
- matches the level of delegation to team maturity,
- uses measures that support the conversation about change with the executive team,
- knows techniques for maintaining their own effectiveness and balance as a leader.
